The chart is a 2D plot with 'Сложность' (Complexity) on the vertical axis and 'Влияние на бизнес' (Business Impact) on the horizontal axis. The vertical axis ranges from 'Low' at the bottom to 'High' at the top. The horizontal axis ranges from 'Low' on the left to 'High' on the right. A dashed horizontal line is at the 'Medium' complexity level, and a dashed vertical line is at the 'Medium' business impact level. The chart is divided into three main regions: 'ENRICH' (grey, low impact), 'CORE' (green, high impact), and 'SUPPORTING' (purple, medium impact). Various sub-domains are plotted as circles, with red circles indicating current positions and green circles indicating future positions. Some sub-domains are labeled with team topologies (N, X, C). A dashed arrow indicates movement over time from 'Happy Cat Box' to 'Управление финансами'.
